

**Reference on****Bachelor Programs of Ukrainian-American Concordia University
- International Economic Relations and International Business**

Ukrainian-American Concordia University (UACU) has a long history of cooperation with Germany in education, politics, diplomacy and business. UACU administration, faculty and students are cooperating with German partners developing Double Degree Programs, Erasmus+ Mobility Programs (University of Koblenz-Landau), Exchange Programs (University of Applied Sciences, Worms; Ukrainian Free University, Munich), students internships and meetings with representatives of the Honorary Consulate of Ukraine to Germany, Mainz, German Parliament, Chamber of Commerce in Mainz and many others.

German partners are visiting UACU on a regular basis, from March 2020 virtually.

All our contacts and cooperation naturally stimulate development of both programs - Bachelor of International Economic Relations and Bachelor of International Business making them internationally and European oriented with an emphasis on business communication, negotiations, international trade and economic relations.

It is important that studies at UACU are in English, also students take German, it makes them competitive on the European and world market. It is always a pleasure to learn that UACU alumni are well employed in Ukraine, Germany and other countries. Many of the students intern and then continue to work in German companies in Ukraine and abroad: Nivea (Beiersdorf), Deutschebank, Metro-cash-and-carry, Porsche Finance Group etc.

Highly qualified faculty and personnel provide quality education at UACU, its business constituent has been accredited by the German Accreditation Board - FIBAA (Foundation for International Business Administration Accreditation).
