

RISK MANAGEMENT
Master Degree
Syllabus
III 2.2
MBA-542
Specialty: 073 “Management”
Educational program “Business Administration”

Quarter/Year: Fall 2023

ECTS Credits: 6

Instructor: Tetiana Gordiienko, PhD, Associate Professor US Credits: 3

Contact information: tetiana.gordiienko@uacu.edu.ua

Prerequisites: none

Course Description

This course is dedicated to the theory and practice of identification of risks and factors affecting them, mastering with methods of risk estimation, risk analysis and risk minimizing. Students will gain a deep understanding of the theoretical principles of risk management, the economic significance of risks, their sources and classifications, and their impact on entities engaged in international business, explore strategies for international risk management and examine the institutions and international standards regulating this field. By the end of this course, students will be equipped with the knowledge and skills necessary to make informed decisions and develop strategies to reduce and manage risks in diverse economic contexts.

Course Outcomes

Upon successful completion of this course, students will be able to:

PH.2. Identify problems in the organization and justify methods for solving them;

PH.4. Substantiate and manage projects, generate business ideas;

PH.8. Use specialized software and information systems to solve management problems of the organization;

PH.12. Be able to delegate authority and management of the organization (unit);

PH.13. Be able to plan and implement information, methodological, material, financial and personnel support of the organization (unit).

Competencies

3K3. Information skills and communication technologies;

CK4. Ability to effectively use and develop the organization's resources;

Internationality: The international aspect of the course includes study of international guidelines and standards for risk management, as well as gaining systematic knowledge of economic meaning of risks in international business, factors affecting them, exploration of the experience of foreign companies in risk management.

Communications

For individual issues, students should contact the professor **ONLY** by given e-mail or by Moodle. In the Subject line they should put: UACUFirstNameLastName. E-mail messages will normally be answered within 24 hours.

Note! Only emails sent from the student's corporate email address will be answered.

Attention! Official and only language used for assessment activities is English. Official and only languages used for communication within the University are Ukrainian and English.

Student Responsibilities

Time Commitment

The study of technical courses is cumulative (i.e., an understanding of earlier material is necessary to grasp concepts covered later). Past experience has shown a high correlation between procrastination and low grades. Students must be committed to completing tasks on time.

Technical Aspects

The student is obliged to provide himself/herself with all the necessary technical equipment for the educational process (laptop or computer, webcam, headsets or headphones and microphone), as well as access to the Internet.

Only students signed-in with their own first and last name are allowed into video lectures in Zoom.

Grading Policy

The course is based on mastery of course outcomes. Student grades for this course will be calculated based on performance.

Note: the minimal grade to pass a subject is 60%.

Graduate Grading Guidelines

The assignment of a letter grade for a course is an indication of the student's overall success in achieving the learning outcomes for the course. The course letter grade may be viewed as a summary statement of the student's achievement in individual assessments (assignments & activities). These assessments are intended to identify for students their strengths as well as those areas in need of improvement. Student work is assessed according to the guidelines below.

Course-level Grading guidelines:

Grade	ECTS Grade	International Grade
90% - 100%	A	5 (Excellent)
83% - 89%	B	4 (Very Good)
75% - 82%	C	4 (Good)
70% - 74%	D	3 (Good)
60% - 69%	E	3 (Acceptable)
35% - 59%	FX	Not acceptable, possible repetition of course

Criteria for grading:

ECTS grade	Requirements for the student
A	The student demonstrated a comprehensive systemic and in-depth knowledge of program material; processed basic and additional literature; obtained a solid grasp of the conceptual apparatus, methods, techniques and tools provided by the program; found creative abilities in the presentation of the educational program material both on this issue and on related modules of the course and related courses, or the student had a current control of 90-100 points
B	The student demonstrated good knowledge of program material; processed the basic literature, mastered the conceptual apparatus, methods, techniques and tools provided by the program, but with some inaccuracies
C	
D	The student showed mediocre knowledge of the core program material; learned information mainly from a lecture course or just one textbook; mastered only certain methods, techniques and tools provided by the program
E	
FX	The student has significant gaps in knowledge of the main program material; fragmentary mastered the basic concepts, techniques and tools; significant mistakes are made when using them

Maximum total possible points – 1000 points incl. (Midterm and Final exam are 60% of overall evaluation, where Midterm – 20% and Final – 40%)

Test / Assignment / Project – 400 points (several times during the course)

Midterm exam – 200 points

Final exam – 400 points

Student Workload

It is assumed that for each out of 17 class sessions a student spends about 10.5 academic hours of work. This includes 3.5 academic hours of lectures with the instructor and 7 academic hours of personal work. Personal work includes the lecture scope study and supplements, preparation for the practical seminars, providing group and individual researches and preparing essays and/or presentations.

Please pay attention that 1 academic hour equals to 40 minutes.

Assignment Format

- All work should be shown in time. If the student misses the deadline – the task is failed.
- Midterm covered topics from previous lectures (weeks 1-7). It included multiple choice questions and cases (essays) and took about 1.5 hours.
- The Final exam covered all course material and included multiple choice questions and cases (essays). It lasts for 1.5 hours. Admission to the Final exam is possible only if all the tasks of the curriculum are covered.
- After the Midterm and Final is graded a student has access to the grade only. Access to the attempt, corrects answers and information whether the answer is correct cannot be granted.

Academic dishonesty

Academic integrity is submitting one's own work and properly acknowledging the contributions of others. Forms of academic dishonesty include:

1. Plagiarism – submitting all or part of another's work as one's own in an academic exercise such as an examination, a computer program, or a written assignment.
2. Cheating – using or attempting to use unauthorized materials on an examination or assignment, such as using unauthorized texts or notes or improperly obtaining (or attempting to obtain) copies of an examination or answers to an examination. Including the use of artificial intelligence and pre-prepared answers to the questions of tasks is prohibited (unless otherwise specified in the task itself or allowed by the instructor).
3. Facilitating Academic Dishonesty – helping another commit an act of dishonesty, such as substituting for an examination or completing an assignment for someone else.
4. Fabrication – altering or transmitting, without authorization, academic information or records.

Any violation of these rules constitutes academic dishonesty and is liable to result in a failing grade and disciplinary action. In case of any academic dishonesty a student is not allowed to continue or retake the assessment activity and for the Final the unsatisfactory grade ("0") is assigned for the course total. Cases of the academic dishonesty are not considered by the Academic Council.

Midterm and Final are valid only if they are taken on-campus (room defined by the dean's office) and on UACU's computer/laptop or online on the student's computer/laptop using Zoom and other conditions defined by the dean's office to avoid the cases of academic dishonesty. Students who will not meet this requirement will be expelled from the course with grade "0".

In case of missed Midterm or Final exam (for a valid reason like sickness or an emergency) a request to repeat the exam is possible. Permit to repeat a midterm or final exam is done through a letter to the dean's office with request and approval of subject lecturer.

Submission or retaking of any assessment activities after deadlines are forbidden.

Submission & Return Policy

Assignments must be submitted to the professor on or before the due date indicated in the Course Schedule. The assignments submitted after the due dates receive zero points.

Schedule

Week #	Research Projects	Assignments Due	Points
Lecture 1	Nature and peculiarities of risks Definition of risk and its nature. Modern theories of risk. Correlation of risk and uncertainty. Sources of risk.	Review Lecture Test /Assignment due	25
Lecture 2	Classification of risks Classification of risks by the nature of activity, objects, time of occurrence, factors of occurrence, characters of accounting and consequences, the scope of occurrence. Internal and external risks in international business. Concept of "country risk". Political risk of the country. Global and specific risk	Review Lecture Test /Assignment due	25
Lecture 3	Concept of risk management Concept of risk management and its peculiarity in international business. History of development of theory and practice of the risk management.	Review Lecture Test /Assignment due	25
Lecture 4	Process of risk management Risk management as process, its goals and objectives. Principles of risk management in international business. Basic stages of risk management process: evaluation and analysis of risks, choice of exposure assessment methods with evaluation their comparative effectiveness; decision making; direct impact on risk; control and correction of the results of management process.	Review Lecture Test /Assignment due	25
Lecture 5	Risk identification Metrics of risk identification: effects, causes, impacts, areas of risk and events. Phases of the risk identification lifecycle. Methods of risk identification	Review Lecture Test /Assignment due	30
Lecture 6	Risk matrix Checklists. Immediate lists. Registers risk. Mapping risk. Tables of probabilities. Card Matrix of risk. Roadmap of risk management project.	Review Lecture Test /Assignment due	30
Lecture 7	Rating methods of risk analysis Types of ratings, methods and techniques of their preparation and publication. Integral and special ratings. « BERI » rankings. Credit risk ratings. Delphi method and Delphi score.	Review Lecture Test /Assignment due	30
	Midterm (8th class) 20% out of total amount of points for the course	28.09.2023	200
Lecture 8	Value at risk (VaR) Investment portfolio risks. Metrics of VaR. Standard deviation. Correlation. Covariation. Fisk Factor. Variance-Covariance Method. Historical Simulation. Monte Carlo Simulation	Review Lecture Test /Assignment due	25
Lecture 9	Qualitative methods of risk assessment	Review Lecture	25

	Brainstorming. Analysis assumptions. The method of study hazard and operability (HAZOP-method). Failure mode, effects, and criticality analysis (FMECA-method).	Test /Assignment due	
Lecture 10	Methods of risk mitigation Risk aversion, risk reduction, risk taking, risk transfer. Rules of choice, evaluating the effectiveness of the selected method of risk mitigation	Review Lecture Test /Assignment due	25
Lecture 11	Methods of risk treatment Organizational and economic methods of risk reduction. Risk deviations. Diversification. Preventing losses and minimizing losses. Formation of special reserve fund (risk fund). Creating insurance inventory. Development and introduction of penalties policy.	Review Lecture Test /Assignment due	30
Lecture 12	Methods of risk transfer Insurance. Indemnification clause in contracts. Hedging. Purchase of additional information about the selection and the results of risk in international business.	Review Lecture Test /Assignment due	30
Lecture 13	Management of political risks Political risks influence on international business. Types of political risks. Methods of management of political risks.	Review Lecture Test /Assignment due	25
Lecture 14	Price and currency risks Definition of the price and currency risk appetite and its estimation. Objects of price risks. Long and short currency positions. Internal politics and procedures for the price and currency risks management.	Review Lecture Test /Assignment due	30
Lecture 15	Risk Reporting Requirement for information support of risk management. Enterprise Risk Dashboard. Risk scorecard. Principal risk report. Risk deep dive report. Risk radar report. Risk moderation report.	Review Lecture Test /Assignment due	20
	Final (17th class) 40% out of total amount of points for the course		400
