## IT Applications

### Syllabus

### III 2.9

### ITA-331

### Specialty: 073 Management

### Educational program "Bachelor of Business Administration in Management and International Business"

Quarter/Year: Spring/2025

ECTS Credits: 6

Instructor: Ruslana Seleznova, Ph.D

US Credits: 3

#### Contact

information: [ruslana.seleznova@uacu.edu.ua](mailto:ruslana.seleznova@uacu.edu.ua)

Prerequisites: CS

#### Course Description

IT Applications is the study about IT applications for business and management. IT Applications studies the theory of computation and the practice of designing software systems. IT local business-functional applications embedded in business processes, activities, products and/or services. Research and development work in IT area performed to create a situation-specific bridge between new or existing IT hardware and software technologies and the information needs/wants of a customer. The combination of proper hardware, software, and tailored application delivers a well-rounded IT solution for the customer's problem

#### Course Outcomes

PH3. Demonstrate knowledge of theories, methods and functions of management, modern concepts of leadership.

PH4. Demonstrate skills to identify problems and justify management decisions.

PH6. Identify skills of search, collection and analysis of information, calculation of indicators to justify management decisions.

PH8. Apply management methods to ensure the effectiveness of the organization.

PH9. Demonstrate skills of interaction, leadership, teamwork.

PH11. Demonstrate skills of situation analysis and communication in various areas of the organization.

PH12. Assess the legal, social and economic consequences of the organization.

PH14. Identify the causes of stress, adapt yourself and the members of the team to the stressful situation, finding ways to neutralize it.

PH15. Demonstrate the ability to act socially responsibly and socially consciously on the basis of ethical considerations (motives), respect for diversity and interculturalism.

PH16. Demonstrate skills of independent work, flexible thinking, openness to new knowledge, be critical and self-critical.

PH17. Perform research individually and/or in a group under the guidance of a leader.

### **Competencies**

3K8. Skills in the use of information and communication technologies.

3K10. Ability to conduct research at the appropriate level.

3K12. Ability to generate new ideas (creativity).

CK5. Ability to manage the organization and its departments through the implementation of management functions.

CK8. Ability to plan the activities of the organization and manage time.

CK15. Ability to form and demonstrate leadership qualities and behavioral skills.

**Internationality:** The international aspect of the course includes: International textbooks, web-sites, video materials and software.

### **Communications**

For individual issues, students should contact the professor **ONLY** by given e-mail or by Moodle. In the Subject line they should put: **UACUFirstNameLastName**. E-mail messages will normally be answered within 24 hours.

**Note!** Only emails sent from the student's corporate email address will be answered.

**Attention!** Official and only language used for assessment activities is English. Official and only languages used for communication within the University are Ukrainian and English.

For individual issues, students should contact the professor **ONLY** by given e-mail or by Moodle. In the Subject line they should put: **UACUFirstNameLastName**. E-mail messages will normally be answered within 24 hours.

Note! Only emails sent from the student's corporate email address will be answered.

Attention! Official and only language used for assessment activities is English. Official and only languages used for communication within the University are Ukrainian and English.

### **Student Responsibilities**

#### **Time Commitment**

The study of technical courses is cumulative (i.e., an understanding of earlier material is necessary to grasp concepts covered later). Past experience has shown a high correlation between procrastination and low grades. Students must be committed to completing tasks on time.

Students are responsible for following the schedule, attending classes, completing assignments on time and to the required standards, and maintaining academic integrity. These responsibilities are not open for discussion with instructors or the dean's office.

#### **Technical Aspects**

The student is obliged to provide himself/herself with all the necessary technical equipment for the educational process (laptop or computer, webcam, headsets or headphones and microphone), as well as access to the Internet.

Only students signed-in with their own first and last name are allowed into video consultations in Zoom.

### Grading Policy

The course is based on mastery of course outcomes. Student grades for this course will be calculated based on performance.

Note: the minimal grade to pass a subject is 60% .

### Graduate Grading Guidelines

The assignment of a letter grade for a course is an indication of the student’s overall success in achieving the learning outcomes for the course. The course letter grade may be viewed as a summary statement of the student’s achievement in individual assessments (assignments & activities). These assessments are intended to identify for students their strengths as well as those areas in need of improvement. Student work is assessed according to the guidelines below.

#### Course-level Grading guidelines:

##### Bachelor

Grade	ECTS Grade	International Grade
90% - 100%	A	5 (Excellent)
83% - 89%	B	4 (Very Good)
75% - 82%	C	4 (Good)
70% - 74%	D	3 (Good)
60% - 69%	E	3 (Acceptable)
35% - 59%	FX	Not acceptable, possible repetition of course

##### Master

Grade	ECTS Grade	International Grade
90% - 100%	A	5 (Excellent)
83% - 89%	B	4 (Very Good)
75% - 82%	C	4 (Good)
70% - 74%	D	3 (Good)
35% - 69%	FX	Not acceptable, possible repetition of course

#### Criteria for grading:

ECTS grade	Requirements for the student
A	The student demonstrated a comprehensive systemic and in-depth knowledge of program material; processed basic and additional literature; obtained a solid grasp of the conceptual apparatus, methods, techniques and tools provided by the program; found creative abilities in the presentation of the educational program material both on this issue and on related modules of the course

	and related courses, or the student had a current control of 90-100 points
B	The student demonstrated good knowledge of program material; processed the basic literature, mastered the conceptual apparatus, methods, techniques and tools provided by the program, but with some inaccuracies
C	
D	The student showed mediocre knowledge of the core program material; learned information mainly from a lecture course or just one textbook; mastered only certain methods, techniques and tools provided by the program
E	
FX	The student has significant gaps in knowledge of the main program material; fragmentary mastered the basic concepts, techniques and tools; significant mistakes are made when using them

Maximum total possible points – 180 points incl. (Midterm and Final exam are 50% of overall evaluation, where Midterm – 20% and Final – 30%)

Test / Assignment / Project – 3/3 /3 points (35-40% of the total for the course are tasks taken or presented exceptionally during the class)

Midterm exam – 36 points

Final exam – 54 points

### **Student Workload**

It is assumed that for each out of 17 class sessions a student spends about 10.5 academic hours of work. This includes 3.5 academic hours of working on lecture materials (including consultations) and 7 academic hours of personal work. Personal work includes projects and presentations.

Please pay attention that 1 academic hour equals to 40 minutes.

### **Assignment Format**

All work should be shown in time. If the student misses the deadline – the task is failed. Midterm covered topics from previous lectures (weeks 1-6). It included multiple choice questions and cases (essays) and took about 45 min.

The Final exam covered all course material and included multiple choice questions and cases (essays). It lasts for 1.5 hours. Admission to the Final exam is possible only if all the tasks of the curriculum are covered.

After the Midterm and Final is graded a student has access to the grade only. Access to the attempt, corrects answers and information whether the answer is correct cannot be granted.

### **Academic dishonesty**

Academic integrity is submitting one's own work and properly acknowledging the contributions of others. Forms of academic dishonesty include:

1. Plagiarism – submitting all or part of another's work as one's own in an academic exercise such as an examination, a computer program, or written assignment.

2. Cheating – using or attempting to use unauthorized materials on an examination or assignment, such as using unauthorized texts or notes or improperly obtaining (or attempting to obtain) copies of an examination or answers to an examination. Including the use of artificial intelligence and pre-prepared answers to the questions of tasks is prohibited (unless otherwise specified in the task itself or allowed by the instructor).
3. Facilitating Academic Dishonesty – helping another commit an act of dishonesty, such as substituting for an examination or completing an assignment for someone else.
4. Fabrication – altering or transmitting, without authorization, academic information or records.

Any violation of these rules constitutes academic dishonesty and is liable to result in a failing grade and disciplinary action. In case of any academic dishonesty a student is not allowed to continue or retake the assessment activity and for the Final the unsatisfactory grade (“0”) is assigned for the course total. Cases of the academic dishonesty are not considered by the Academic Council.

Midterm and Final are valid only if they are taken on-campus (room defined by the dean’s office) and on UACU’s computer/laptop or online on the student’s computer/laptop using Zoom and other conditions defined by the dean's office to avoid the cases of academic dishonesty. Students who will not meet this requirement will be expelled from the course with grade “0”.

In case of missed Midterm or Final exam (for a valid reason like sickness or an emergency) a request to repeat the exam is possible. Permit to repeat a midterm or final exam is done through a letter to the dean's office with request and approval of subject lecturer.

Submission or retaking of any assessment activities after deadlines are forbidden.

### Submission & Return Policy

Assignments must be submitted to the professor on or before the due date indicated in the Course Schedule. The assignments submitted after the due dates receive zero points.

\*\*\*\* NO MAKE –UP QUIZZES AND EXAMS \*\*\*\*

### Schedule

Week #	Research Projects	Assignments Due	Points
Lecture 1 05-02 9-20	Concepts of data, information, and computer-based information systems, impact of information technology on business (business data processing, intra-organizational and inter-organizational communication by using network technology, business process, and knowledge process outsourcing)	Test/Assignment	3/3
Lecture 2 07-02	<u><a href="#">Types of Information Systems</a></u>	Test/Assignment	3/3

9-20			
Lecture 3 12-02 9-20	<b>Transaction Processing System (TPS)</b>	Test/Assignment	3/3
Lecture 4 14-02 9-20	<b>Management Information System (MIS)</b>	Test/Assignment	3/3
Lecture 5 17-02 9-20	<b><u>Decision Support System (DSS)</u></b>	Test/Assignment	3/3
Lecture 6 19-02 9-20	<b>Knowledge Management System (KMS)</b>	Test/Assignment	3/3
Lecture 7 21-02 9-20	Recent trends in information technology (brief ideas): enterprise computing, mobile communication, smart card, AI	Test/Assignment	3/3
26.04	Midterm (8 <sup>th</sup> class) 30% out of total amount of points for the course	Test	36
Lecture 9 03-03 9-20	Data Base Management System for business (part 1) Concept of Data Base Management System, Important terms of Database [including Entity, Attribute, Primary Key, Foreign Key, Candidate Key, Referential integrity, Table, Views, Data Dictionary]. Types of databases [hierarchical, network, and relational]. Basic ideas of Data Warehouse and Data mining.	Test/Assignment	3/3
Lecture 10 05-03 9-20	Data Base Management System for business (part 2) Creation of Tables, Defining Primary key; Multiple Table Handling – Defining Relationship, Foreign Key; Generating simple and Conditional Queries. Types of queries [Update, Delete, Append]; Designing Forms and Reports.	Test/Assignment	3/3
Lecture 11 07-03 9-20	Introduction to Internet for business applications Meaning of Internet. Concepts of Internet Intranet and Extranet, IP Address (IPv4, IPv6), URL, Domain name System. Internet Protocols - TCP/IP, UDP, FTP, TELNET,(brief ideas only). HTML, DHTML, AND XML	Test/Assignment	3/3
Lecture 12 12-03 9-20	Data Communication: Concept of <u>Data communications</u> , Transmission Modes [Simplex, Half-Duplex, Full Duplex, Serial, Parallel, Synchronous, Asynchronous], Communication Media. Wireless and satellite communication, Wireless Broadband, WAP, Network components – Bridge, Switch, Router, Gateway. Computer	Test/Assignment	3/3

	Networks: Network Concept, Types: LAN, WAN, MAN, VAN, SAN.		
Lecture 13 14-03 9-20	<b>Cloud IT solutions for business</b>	Test/Assignment	3/3
Lecture 14 17-03 9-20	Security Issues for business Security threats - Virus, Trozan, Hacking, Spam. Security Measures - Firewall, Antivirus software, Digital Signature. Concept of data Encryption & Decryption. Symmetric and asymmetric encryption. Digital Envelope	Test/Assignment	3/3
Lecture 15 19-03 9-20	Financial Accounting Package and its Implementation	Test/Assignment	3/3
Lecture 16 21-03 9-20	<b>Artificial Intelligence (AI) for business</b>	Test/Assignment	3/3
28-03	Final (17 <sup>th</sup> class) 40% out of total amount of points for the course	Test	54
